First edition, first printing of the autobiography of the Danish-American social reformer, who was "the first photographer to use the power of the image as a tool for reform" McDarrah, An early adopter of flash photography, Riis began photographing the New York slums and used them to illustrate his book *How the Other Half Lives*, one of the first modern photobooks.

## **The Street Lawyer**

That certainly was a quiet expression of critical anger even if expressed rather gently but objective public assessment could yield the conclusion that this anger was indeed justified most people even in Britain today would accept. The northern border between Catalonia and Languedoc did not shift, but this treaty created a political border right in the middle of Catalan territory by moving the boundary between the monarchies around fifty kilometres to the south, thus separating northern and southern Catalonia.
