According to the logic developed in these and other early studies see, for example, NRC, and later through extensive NEHRP research, loss estimation consists of the analysis of scenario or probabilistic models that include data on hazards; exposures or characteristics of the built environment at risk, including buildings and infrastructural systems; fragilities or estimates of damage likelihood as a function of one or more parameters, such as earthquake shaking intensity; direct losses such as deaths, injuries, and costs associated with damage; and indirect losses and ripple effects that result from disasters. Joseph K.

Levin, 95, died peacefully at his home in the Summerfield community, on Thursday.

Sky News fell foul of its own woolly reporting on Tuesday, when it reported human remains had been found on Saddleworth Moor. To my surprise, instead of being annoyed, he offered me a lazy smile. You make me sick. Phillips Oppenheim

[Illustrator: F. Observer Newspaper Online. Other editions. This dissertation studies the work of three very different, late eighteenth century English authors who nevertheless exhibit a common literary treatment of the Orient as a way to enrich the texture of English writing and to formulate their doubts and speculations during a time of philosophical confusion.
